SRIRAM NEELAMEGAM
BACKEND DEVELOPER

Karaikudi | (91) 93605 52619 | sriramneelamegam04@gmail.com

Professional Summary

I am eager to begin my career as a **Backend Developer**, driven by a strong passion for technology and problem-solving. I have gained hands-on experience in building and managing server-side applications **using PHP and MySQL,** with a focus on writing clean, efficient, and scalable code. I am excited to contribute to real-world projects, collaborate with experienced teams, and continuously enhance **my skills in backend development**. I am also open to **learning new technologies** and ready to take on challenging tasks that push my technical abilities forward.

Projects:

Backend Development (PHP & MySQL):

- **Centralized Dashboard Monitoring for Data-Driven Decision in Industries** – Built a centralized dashboard to collect, process, and visualize industrial data, enabling managers to monitor KPIs and make informed decisions.

- **Billing Software –** Developed a multi-vertical billing management system with invoice generation, tax calculation, and customer record management. Integrated Razorpay payment gateway (COD/UPI) for seamless payments and enabled secure data storage. Built admin & user dashboards for billing analytics, revenue tracking, and compliance monitoring.

- **Order App** – Developed a multi-vertical order management system with QR-based ordering, subscription plans, and product management. Integrated Razorpay payment gateway (COD/UPI) and enabled real-time order tracking. Built admin & user dashboards for analytics, revenue reports, and subscription monitoring.

- **Property Site** – Designed a real-estate website with property listings, search filters, and detailed property views, supported by a secure backend.

- **Institution Site** – Built a website for institutions to display courses, manage student inquiries, and update content through an admin panel.

- **Franchise Site** – Developed a web solution for franchise businesses with registration forms, lead management, and centralized data handling.

Experience:
